

05/10/2020

Hello!

We miss you all so much and we are looking forward to resuming our normal habits and routines. While many things have changed, our commitment to your child's health, safety, and well being has not.

When we reopen on May 18th, in addition to our existing safety measures, you will notice additional changes. We ask that no matter how inconvenient they may seem, that you adhere to them.

- We will screen you and your child on recent signs and/or symptoms of illness, question your contact with others with symptoms of illness, and will take your temperatures. Any temperature 100.4 degrees F or higher will be rescheduled. We will then encourage you to follow up with your primary care physician.
- You will be asked to use Purell upon entering the lobby.
- You and your child (age 2 or older) will be required to wear a mask. If you do not have one, one will be provided to you. However, we do have a shortage of masks, so we ask you to please bring one from home.
- In most cases, only scheduled patients will be allowed in the treatment rooms. We ask that only one parent/caregiver accompany your child to check in, but will urge you to wait in your car during treatment. Please, no siblings.

We look forward to seeing you again and see happy to answer any questions you may have about the implementation of these requirements. They are to not only keep you, but to keep our team and every patient safe in our practice.

Thank you for your patience and flexibility during this time as we deal with our new normal. We value your trust and loyalty and can not wait to see you again!

In health,
Dr. Melissa
